

Damien M. Jones

P.O. Box 608957, Orlando, FL 32860-8957 ~ 321-277-1934

Objective

To work on challenging projects that require attention to detail, in-depth understanding of the problem, cooperation with team members, and high standards.

Summary

Web site programming using HTML, JavaScript, PHP, ColdFusion, Perl, and other technologies: **9 years**

Application programming using C, C++, and assembly for various platforms: **6 years**

Linux Server Administration (Red Hat and Debian): **4 years**

Experience (highlights)

05/2006-09/2008: **Senior Developer/Architect** for [The Business Space](#) in Maitland/Winter Park, FL.

- **Built a web application framework** to be used for multiple projects, providing common features of **layered security, data validation**, archival data storage, **audit trails, velocity constraints**, code re-use, templating, automated form layout, and multi-language support.
- Helped **select technology for integration** with company projects.
- **Integrated multiple external applications** for credit card processing, email account management, and domain registration.
- **Built the Business Space's primary web applications** providing customer management, **document storage and sharing**, web mail, **online billing and payment processing**, and **web site content management**.
- Wrote **customized image processing software** for customizing site graphics with user-selected colors and imagery.
- Coordinated and **merged work from multiple developers**.
- Developed **code deployment systems** to manage rollouts of new application versions.
- **Administered** development-, testing-, and **production-environment servers**, including determining and implementing disaster-recovery plans.

12/2005-04/2006: **Developer** for [Quest Technology Group](#) in Orlando, FL.

10/2004-08/2005: **Senior/Lead Developer**, Web Development for [WildCard Systems](#) (now part of Fidelity National Information Services) in Maitland, FL.

12/2003-08/2004: **Live Server Engineer** at [Electronic Arts Tiburon](#) in Maitland, FL.

01/2000-11/2003: **Senior/Lead Developer, Web Development** for WildCard Systems in Maitland, FL.

11/1999-12/1999: Network Administrator/Software Engineer for Advanced Media Group in Orlando, FL. AMG was **acquired** by WildCard Systems in January 2000 based on the **talents of AMG's employees**.
